

Professional Readiness for Innovation, Employability and Entrepreneurship

Project Report for week 1

Project Title: Early Detection Of Chronic Kidney Disease Using Machine Learning

Mentor Name: Mr. Jemin.V.M

Team Members:

- Muppala Mona Sree (**Team Leader**)
- Monika M
- Manju Parkavi G
- Priya Dharshini E M

Week 1:(22-27th August 2022)

In week 1 we onboarded the course and attended the orientation sessions regularly and came to know more about this course.

We decided on the project use case. On 18th August 2022 we got approval from the college SPOC and able to access the resources in the dashboard.

We all got the access to the guided project workspace and joined the mentoring channel. We referred all the guided project template and pre-requisites mentioned on 24th August.

In the project workspace, all the members of the team collaborated our Github with the IBM-Project repository through our respective Github usernames.
